

Early Years Newsletter

School Reports

We hope you enjoyed reading your child's report. Thank you so much for your feedback. We really appreciate your kind words. If you have not yet returned the form to acknowledge receipt of your child's report, it'd be great if you could get these in as soon as possible. Your feedback means a great deal to us and will help us in planning for next year.

A huge thank you to  Hattie's mum who came in to talk us yesterday about the family's experience of living in France. The children loved looking at the photographs and hearing her stories. The talk was a great follow on from our international week.

The children will be involved in quite a lot of water play next week (weather permitting). Please could you include a spare pair of socks in your child's book bag just in case they get a little wet.

Many thanks

TUNNEL COMPETITION WINNER!

We're pleased to announce **LIBBY HILLS** as our tunnel winner. Libby had her photograph taken in her dad's polytunnel. In this tunnel he grows all the plants he needs for his landscaping business. Libby explained this beautifully and with pride. 🌟

The children enjoyed a lovely session with Emma Garrick from the Think Physics team exploring jobs in construction. The children worked in role in the following jobs:

- Architect
- Civil Engineer
- Bricklayer
- Quantity Surveyor
- Planner
- Project Planner

From building bridges with straws, to designing houses, the children had a great time. For homework you could use the internet to research one of these jobs further. Thank you Emma!

Thank you for supporting the children at sports day yesterday. We felt very proud of the children's efforts and sportsmanship.

SUPERHEROES!

The superhero theme has proven very popular this week. As well as making masks, children have invented their own superheroes and have written in secret code! Can children use the code attached to create their own superhero message?

This would be a great chance to practise recognising capital letters and consolidating recognition of numbers up to 26.

The children have also loved playing some superhero computer games including this one - <http://www.funenglishgames.com/spellinggames/spidermanspelling.html>

Week beginning: 6.7.15
